**Detailed Action**

***Drawings***

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because some fonts are difficult to read due to handwritten format. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

***Allowable Subject Matter***

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention generally discloses ranks buyers based on the likelihood that they will bid on the products being offered wherein the system can track the users by certain user information as well as block a certain user's access to the system based on the user's information. The prior arts of record include the teaching of Corn et al. (US 2004/0167845) and Hambrecht et al. (US 2004/0039685). Corn teaches a minimum price per click for a search term is determined by creating search volume tiers. On the other hand, Hambrecht teaches a computerized system for trading products between at least one buyer and at least one seller. However, the prior arts of record fail to teach, singly or in combination, information of a frequency with which said buyer has accessed said computerized system, information of a frequency with which buyer has viewed said

financial product, and information of whether said buyer has viewed detailed information about said financial product; and historical information for each of said buyers, comprising: the number of other financial products that said buyer has bid on previously, the number of winning bids from said buyer for other financial products; a ranking determined for each buyer relating to the likelihood that said buyer will bid on said financial product, said ranking determined based on said buyer activity information and said buyer historical information; and a market assessment for each of said financial products determined based on the number of buyers whose likelihood of bidding on said financial product exceeds a predetermined threshold.

The examiner agrees with the applicants' arguments presented in the amendment of October 30, 2008 and has withdrawn the rejection under 35 USC 103 over Corn et al. (US 2004/0167845) in view of Hambrecht et al. (US 2004/0039685). The prior arts of records taken singly or in combination fail to teach or fairly suggest the claimed invention. Therefore, the examiner favors the allowance of claims 1-18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
